To whom it may concern:

Following an affirmative final determination by the Ministry of Finance (MOF) that imports of ceramic tiles from India, Vietnam, Malaysia and Indonesia are being dumped in Taiwan (R.O.C.), the International Trade Commission (ITC) of the Ministry of Economic Affairs instituted its final investigation on July 20, 2021 to determine whether the domestic industry concerned in Taiwan (R.O.C.) is materially injured, or threatened with material injury by the above mentioned dumped imports.

In order to proceed with the final injury investigation of this case, the ITC will conduct a hearing to provide an opportunity for communication between representatives of domestic producers,

foreign producers and exporters, importers, and other interested parties. Because COVID-19 mitigation measures are in effect, the hearing will be held via a video conference platform.

The hearing will be held on August 16, 2021, 2:00 p.m. Those who wish to join the hearing need to register with the ITC through the ITC's website www.moeaitc.gov.tw before August 11, 2021, for our duly arrangement of video conferencing. Persons signed up for presenting their views are also invited to join the pre-hearing meeting, which will be held by video conferencing on August 13, 2021, 2:00 p.m. in order to arrange the sequence and time allocation of the presentations in the first session of the hearing.

Furthermore, due to the necessity for processing investigation data and information , the ITC, in compliance with Articles 14 and 18 of the Regulations Governing the Implementation of the Imposition of Countervailing and Antidumping Duties, postpones until September 17, 2021 the final injury determination of the case.
